Flying Scot Fleet 203

FSSA - The Flying Scot Sailing Association

The Flying Scot Sailing Association (FSSA) is the class association of the Flying Scot, a 19 foot centerboard sloop used for both family day sailing and racing. The Flying Scot is one of the oldest and largest one-design sailboat classes in the world. The late Sandy Douglass designed and built the boat and raced it for many years and the Flying Scot was inducted in the *American Sailboat Hall of Fame* in 1998. Our builder Harry Carpenter is a Life Member of our class and races regularly at his home club and in several regattas every year around the country.

The FSSA is one of the strongest one-design class associations in the world. Strict adherence to the one design concept means that the Flying Scot built this year will remain compatible and competitive for years to come with newer as well as older boats.

FSSA members are eligible to compete in district, regional, and national regattas.

Flying Scot Fleet 203

Fleet 203 was chartered in 2014 by the FSSA and is affiliated with the Sailing Club of Washington. Fleet 203 belongs to the Flying Scot Capital District. Its members consist of Flying Scot owners as well as non-owners. The fleet is based at the Washington Sailing Marina.

This edition of the Fleet 203 Newsletter includes the 2017 racing schedule as well as links to some useful resources including videos demonstrating Flying Scot specific sailing techniques and tactics to help you get ready for an exciting racing season. For any questions regarding the fleet, contact the Fleet Captain, Dave Beckett, at davebeckett2014@gmail.com.

For information about FSSA, visit the FSSA website at <http://www.fssa.com/>.
